Professional Summary

Computer Science student with experience in web development, programming, and software projects. Passionate about backend development and building responsive, user-friendly applications. Eager to apply technical and problem-solving skills in an internship environment while continuously learning modern technologies.

Education

Cebu Institute of Technology - University • Cebu City

Bachelor of Science in Computer Science (3rd Year)

Expected Graduation • 2027

Saint Joseph College • Maasin City, Southern Leyte

High School Graduate • June 2023

Projects

CIT-U: Wildcats Marketplace

- A web-based platform for verified students to buy, sell, and share academic materials within a secure campus environment, featuring course-based categorization and built-in communication tools.
- Implemented course-based categorization and built-in communication tools to improve accessibility and user interaction.
- Developed frontend features including login, registration, navigation, landing, and settings pages.
- Technologies Used: React, Tailwind CSS, Vite, Spring Boot, MySQL

Thryft

- An online shopping app that merges social media with e-commerce, allowing users to share product photos and videos with direct purchase links. Users can also offer styling suggestions and ideas for wearing various items. Additionally, the app lets users easily buy and sell products. Users specialize in selling vintage, secondhand, and preloved clothing.
- Contributed significantly to frontend development and integrated Firebase services.
- Technologies Used: Kotlin, XML, Firebase

Reactive To-Do List (In Progress)

- Currently developing a full-stack task management web application using React for the frontend, Django for backend services, and MySQL for database management, designed to help users efficiently organize, track, and manage daily tasks through a responsive and interactive interface.
- Currently designing backend logic and planning database integration.
- Technologies Used: React, Django, MySQL

Skills

Languages: C/C++, Java, Python, JavaScript, HTML & CSS

Tools: Git & GitHub, Canva, Figma

AI Tools: ChatGPT, Gemini, Leonardo AI

Soft Skills: Problem Solving, Communication, Team Collaboration, Adaptability, Self-Motivation, Critical Thinking, Willingness to Learn

Certifications

- CITU - Java Object-Oriented Programming Certification Exam
- CodeChum C Programming Certification 2024 - CIT University
- Introduction to Python Certification - Solo Learn 2024
